

I demand that you stop Sinclair from using my airwaves to broadcast propaganda before the election!

When I heard what Sinclair was doing, ordering all its stations to play a disreputable anti-Kerry propaganda film on prime time before the election I was incredulous. Then I thought of the Fox "News" channel and how biased lies are passed for news these days. But, even then, I was surprised at the audacity of this open partisanship forced down people's throats by Sinclair. These are our wavelengths and companies that use them need to be held to standards of truthfulness. Biased news should be prosecuted.

If you allow this it will be the end of any vestige of the tradition that our free press serves our democracy by investigating the truth and holding the powers that be accountable.

This case is the opposite. Sinclair is acting as the agent of the administration in power and is actively pushing its propaganda.

Sinclair is too big to take a partisan stand. It is unfair.

Why is there an FCC? To preserve democracy by regulating abuses of power in the media. That is your job, your duty.

The deaths and sacrifices of all those who fought to obtain democracy from 1776 on need to be respected. If you fail to prevent this blatant attack on media integrity, you will have disregarded their sacrifices. Even more, you will have joined against them, hastening the day that "Democracy" is just a hollow phrase employed by the corporate regime to control the public.

I demand that you stop Sinclair from using my airwaves to broadcast propaganda!
